TIMING IS EVERYTHING

Before we get to the checklists, we want to mention a quick note about something that often gets overlooked: timing.

If you don't plan properly, you can end up with furniture that doesn't fit in your space, linens that don't match, and/or rushing around last minute to get cheap items that end up breaking right away.

By planning ahead and taking into account the time it takes to shop and set up your property, you can ensure that your guests have a great experience in a comfortable and inviting environment.

Here are our recommended time frames for when to purchase items prior to your listing going live:

8+ weeks out	Furniture
6 weeks out	Linens
4 weeks out	Mattresses, Kitchen, Rugs, Decor, Amenities, Supplies

Please take any potential supply chain issues into account and give yourself extra time as needed.

Don't have 8+ weeks? HostGPO members can always reach out to our team to get help finding quality furniture and items that are all in stock and ready to ship.

NOT JUST ANOTHER CHECKLIST

We've compiled data from hosts with just a few units to those with thousands, so you can trust that our checklist is comprehensive.

Whether you're just starting out or an experienced host looking to maximize your profits, our checklist can provide you with the necessary guidance to ensure your success.

BONUS FEATURE!

Check out the Airbnb  and VRBO  icons next to each item. These indicate filters within each platform. Having more of these amenities increases your ranking.

- ☐ Ketchup
- ☐ Mustard

Fun Food Extras - Nice to have

Providing a coffee/tea station can help guests feel at home. This can include your coffee maker, a selection of coffee and teas, as well as creamer and sugar options.

We love organizing items into small bowls and putting them on a tray.

BEDROOMS

Furniture

☐ Bedframe

Choose a frame with a headboard or add a headboard to your frame. We recommend getting a king or queen for the main bedroom.

☐ Mattress

To make the most of your budget, use the highest quality mattress in the main room and slightly lower quality for the other rooms.

☐ Nightstand(s)

We would put one on either side of the bed, assuming you have enough space in the room.

Furniture - Nice to have

☐ Sitting Chair or Bench

Depending on the layout of your room, having a chair in the corner or bench at the foot of the bed adds a great place for luggage or clothes.

☐ Dresser

This is a great option to add if you have the space, especially if guests will be staying more than a couple days. We recommend at least 2 drawers per person staying in the room.

☐ Curtains/Blinds

If you're going to go for room darkening curtains or shades, think about doing it in the bedrooms.

Decor - Nice to have

☐ Decorative Pillows

To add a bit of character, we recommend 2 Euro pillows and shams to go behind the standard pillows along with 2 small throw pillows or a bolster to go in front.

☐ Rug

The easiest rug option is having one large rug that goes under the bed and extends 18" - 14" out from either side and the foot of the bed. A queen bed requires an 8' x 10' rug or larger. A king bed requires an 9' x 12' rug or larger.

☐ Floor Length Mirror

Will your guests be getting ready to go out or for a special event? If so, this is a must.
